

STRONGER STORIES

DIVERSITY & INCLUSION

METRICS 2021

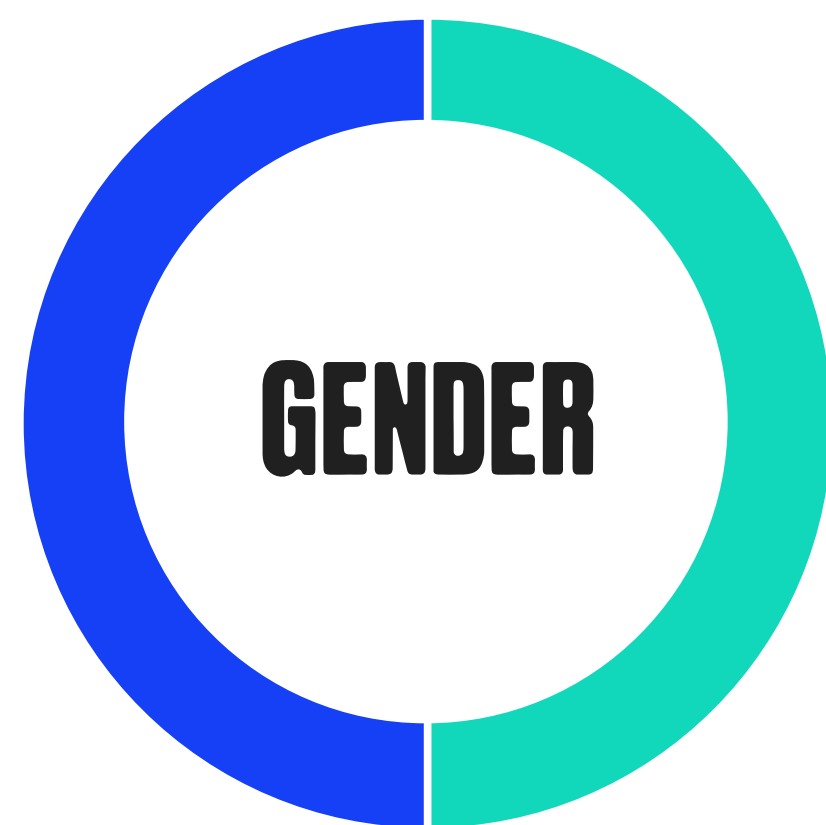

As a team, our diversity represents many different intersections across ethnicity, gender, sexual orientation*, caregivers* and religious beliefs*. We do not represent people living with disabilities and could improve our representation across age range and educational background*. Ethnicity, gender, age and disability are underrepresented in our leadership team. We are hoping to address in the short term by recruiting an advisory board and bringing greater lived experience into the business.
